

GRADE 6

Assignments for February 18-19, 2021
For up-to-date assignments, please check FACTS.

6th Grade Bible - A

Teacher: Kristen Hooper

Topics this Week: We'll begin this week looking at some very significant moments in Jesus' life. The first time we'll cover is the temptation in the desert (Matthew 4/Luke 4).

Tests/Quizzes/Projects: none

Reminders: For the next three weeks, we'll talk about Jesus and his earthly life. The week before spring break will be a review and when we come back, we'll discuss the crucifixion and resurrection as we lead up to Easter.

6th Grade Bible - B

Teacher: Josh Barnett

Topics this Week: Find 5 verses in the bible that mention "snow". Of the 5 verses, choose two that you want to type the verse out. The rest only give the book, chapter, and verse. Include a snowy picture. It would be great if in your yard. Tell me how we can be reminded of God with "snow". This is all on a SeeSaw on Google Classroom Assignment

Tests/Quizzes/Projects: None

Reminders:

Language Arts - A and B

Teacher: Kristen Hooper

Topics this Week: We will begin our next unit in literature, Unit 2 (nonfiction) by reading "All I Really Needed to Know I Learned in Kindergarten" and writing the rough draft of an essay.

Tests/Quizzes/Projects: *Essay will count as a test grade! We'll finish it next week.*

Reminders: Students should be well into or finished with their IR book. Project information has been sent home and students have foldables to write on for their poster.

Math - A

Teacher: Josh Barnett

Topics this Week: Google Meet for the beginning of class for scale, question, and instructions for the day; Thursday a reminder of adding, subtracting, multiplying and dividing equations with Edpuzzle and ixl; Friday a Google Form quiz over solving equations

Tests/Quizzes/Projects: A small online quiz using Google Form to see if you understand solving equations from Thursday

Reminders:

Math - B

Teacher: Josh Barnett

Topics this Week: We will meet on Google Meet through Google Classroom at 10:00 am both days for scale, question, and instructions. On Thursday, I want the students to review what we have learned for the test by completing the ixls (85 or above). On Friday, I want the students to be creative with a Google Slide representing data using the snow days. They could count the number of steps while outside; Guess the distance of sledding down a hill; how long outside total for a day; how many layers to bundle up for the cold

Tests/Quizzes/Projects: None

Reminders:

Science - A and B

Teacher: Kristen Hooper

Topics this Week: We will review Unit 4 and the three lessons we covered (Human Impact on Water, Land and Atmosphere) this week and early next week.

Tests/Quizzes/Projects: Look for a test Wednesday (B section) or Thursday (A section)

Reminders: *The biome projects were FABULOUS! I am so proud of the work that the kids put in on their diorama and letter. Way to go!*

Social Studies - A and B

Teacher: Josh Barnett

Topics this Week: I want the students to work on their Greek project that is due in March. I want them to answer 5 of the questions and create a rough draft of their project using SeeSaw. We will meet on Google Classroom to do scale, question, and instructions. I will be available if any questions.

Tests/Quizzes/Projects: None

Reminders:
