

AP US History Summer Assignment

Summer work will be on the link to the [APUSH site](#)

*You must be logged in to your school account to access the website.

Part 1: Read **Chapter 1: A New World of Many Cultures** in your AMSCO book. Complete the guided reading packet for Chapter 1. The guided reading packet consists of Notes and Analysis sections to help deepen your understanding of the content. The completed packet will be worth **25 points**. This packet can be found on the class APUSH site under Period 1.

Part 2: Look at the Document Analysis activities on the APUSH site under Period 1. We will typically start class with a Document Analysis. Although you do not have to turn anything in, you need to familiarize yourself with the Doc Analysis format.

Part 3: Go through the Period 1 Google Slides for further information. There are also guided notes to help you go along.

Part 4: Complete the Period 1 Short Answer Question on the APUSH site under Period 1. You will be given several SAQs throughout the year. They are a great way to strengthen analysis skills and the SAQ format is also featured on the APUSH exam. This assignment will be graded on completion and will be used to determine if you are understanding the material. It will also give me an idea of your current writing level. This assignment will be worth **9 points**.

Part 5: Look at the Sources and Historical Thinking Skills information in the APUSH Home section. We will discuss these more in detail in the first week of class but I would like for you to go ahead and read through the information.
